Follow your child's progress in preschool

www.vaxjo.se/larplattform

- We are now opening our platform for preschool, IST Lärande förskola (IST Learning Preschool). Here you'll find information about your child and what we do in preschool, all protected by a personal log-on function.
- Our learning platform has a blog, which is where you, as a custodial parent or guardian, log in and access information about your child. The personnel in preschool are the people who will be writing and publishing the information in the blog.
- Everything is secure, protected by personal log-on function, so that only you, as a custodial parent or guardian, can access the content.
- You get all the information from preschool collected at a single location. Your child's preschool can tell you about how they will be using IST Lärande förskola, and when they will be starting with it.
- Secure log-on. You log on with BankID or mobile BankID. You can read more about BankID at **www.e-legitimation.se**
- Log on here: **www.vaxjo.se/larplattform**
- If you don't have BankID, just contact your preschool in order to access information about your child is some other way.

Information is available in Arabic, English and Somali at Information på **www.vaxjo.se/larplattform**

Best wishes from the Education Administration
